

## Haiti Partners: Report One Year after the Earthquake

### *Accomplishments and Goals – JANUARY 12, 2011*

*During the past year your generosity made it possible for many tangible accomplishments. We're also committed together to continuing to make a difference for people in Haiti. Here is what you made possible, and by God's grace, what we can accomplish together in the year ahead:*

#### **Disaster Response**

1. Emergency support – immediately after the quake more than 5,000 Haitians in our partner school communities received aid for food, water, shelter and medical care.
2. Generators – 240 distributed to schools, churches and community organizations.
3. Education – within 90 days of the quake all seven of our partner schools were operational, with five of them meeting in temporary structures.
4. School Reconstruction – Brand-new, quality facilities were completed for three of our partner schools.
5. Trauma training – more than 3,000 Haitians received support from teachers and leaders in our networks in dealing with trauma.
6. Cholera prevention – more than 7,000 Haitians received training in cholera prevention.
7. Bibles distributed – 10,000 people received God's Word and training in participatory Bible study.
8. Credit programs created – 300 families are benefitting from micro-loans that are enabling them to start or grow small businesses.
9. Computers – 150 children and 40 "mentors" received XO student laptops and four-to-six weeks of training.
10. Educators trained – more than 1,100 took part in our 3-month Civic Empowerment program, which builds skills in critical thinking, dialogue, and collaboration, while also encouraging civic participation. This impacts more than 15,000 students.
11. Jobs – hundreds of Haitians were employed through these activities.

## **With your help, we can build on this in 2011:**

### STUDENTS Program

In addition to educating 1,000 children in seven partner schools, we will:

- Equip three newly built schools with electricity, Internet, and computer labs.
- Provide seed money and training to four partner school communities to create small businesses to help cover school expenses.
- Continue to improve the students' education through ongoing teacher training, mentoring, and additional materials.
- Begin building a Children's Academy to serve as a model school.

### TEACHERS Program

Train 450 educators (for 9,000 children) in our Civic Empowerment Program.

### LEADERS Program

Convene 40 community leaders/educators from around the country for four sessions of training in participatory leadership, organizational development, and also provide seed capital for them to start community enterprises to generate income for education. (Participants in this program meet four times a year over three years)

### DISCIPLES Program

In addition to continuing to work with churches and schools around the country to strengthen their Christian education programs, we will:

- Distribute 10,000 Bibles in partnership with the Canadian Bible Society.
- Launch a scholarship program to enable top Haitian church leaders to receive education at a Haitian seminary—along with internship and other training opportunities.
